## Preface

Organic agriculture has rapidly developed world-wide during the last few years. Since ancient time Sri Lankan farmers have practiced organic agriculture methods and most of our agricultural lands are still organic in nature. However, for commercial level organic farming nation it is necessary to use more comprehensive materials & methods such as certification of organic products from the party certifying agencies as to capture foreign export markets.

However, only very small amount of lands that is about 0.75% of overall agricultural lands or an estimated 17,000 ha in Sri Lanka have so far been committed to certified organic agricultural practices. In view of the export potential and positive environmental impacts, government of Sri Lanka has recognized the sector to be supported as a 'thrust area' for economic development in year 2004.

However, the positive policy framework arising from this recognition would not yield the desired results unless conducive conditions within the sector are not made. The sector lacks the desired level of policy making and programme orientation. This is mainly due to the inadequacy of reliable information.

Therefore with increasing diversity in organic agriculture, organic food industry and related services, many countries have established directories of certified organic operators such as certified organic growers, value-added growers, and processors and updated database on certified organic operators as well as products.

Such a directory generates a high level of trust among the consumers and exporters and makes a significant positive impact on the organic production sector.

Therefore the main objective of this Directory is to compile and present together various parties such as exporters, Non-governmental Organizations, Research and Policy makers and farmers who are involved organic agriculture, cultivation, training, promotion etc,

The Working Committee of the Organic Products Value Chain Core Group, has decided to make such effort to compile national organic directory for the sector, this group consists of,

- Export Development Board of Sri Lanka (EDB)
- Lanka Organic Agriculture Movement (LOAM)
- Department of Agriculture (DEA)
- Helvetas Sri Lanka
- SGS Lanka (Pvt.) Ltd.
- Value Chain Promotion Component (VCP) of GTZ
- Sri Lanka Council for Agricultural Research Policy (CARP)

This is the first effort to make such directory in Sri Lanka and it consist of following components

- Growers,
- Grower organizations/ NGOs,
- Producers,
- Exporters,
- Inspection and Certification Bodies/ Agents,
- Government Officers

Data collected mainly from following sources,

1. Internet- and web resources

- 
2. Export Development Board
  3. Lanka Organic Agriculture Movement (LOAM)
  4. Department of Export Agriculture organic agriculture development network
  5. Ministry of Agriculture
  6. Value Chain Promotion Component (VCP) of GTZ –
  7. personal contacts

Data was collected from clients after sending questioner by e-mail or mail. The clients have to fill the questioners and return it back. Three officers attached to Export Agricultural Department were sent to collect field level data, specially farm land information.

## Acknowledgement

I sincerely acknowledge following personal for helping me to prepare this directory,

1. GTZ- Value Chain Core group for commission this directory
2. All the Members of Working Committee of the Organic Products Value Chain Core Group
3. Prof. H P M Gunasena, Executive Director of Sri Lanka Council for Agricultural Research Policy
4. Mr. S Vaheesan Chairman LOAM
5. Mr. L K Haturunghe, Director, Ministry of Agriculture
6. Dr. P Wickramasinghe, Director, Export Agriculture Department
7. Ms. Nalika Kodikkara, Asst. Director, EDB
8. Mrs. Seneviratne, Asst. Director, Export Agriculture Department
9. All the exporters, growers, NGO's and scientists who helped to prepare this directory by sending information
10. Ms. S K Chandima, Mr. B S Liyanage and Ms. K D T D Kupuppu, Programme Asst. of the Department of Export Agriculture

## Introduction & Summary

Organic agriculture is a sustainable form of agriculture, for both ecological and economic reasons. Attend to incorporate more intensive technologies for agricultural production and the use of genetically modified organisms entails great ecological risks. Loss of soil fertility, intensification of diseases pests, declining biodiversity and more technological agriculture productions as well as the use of genetically modified organisms for food productions are the main concerns of agricultural related risks and the associated consequences.

Organic agriculture is a intensive farming method as it builds on the efficient use of on-farm and local resources: farmyard manure, natural crop protection, local seed, the application of appropriate organic/indigenous management practices such as inter-cropping and agro-forestry and the capability to promote the self-regulation capacity of plants, animals and soil. Organic farming is based on the enhancement of the structure and the fertility of the soil, a balanced choice of crops, and the implementation of diversified crop rotation systems. The number of animals kept on the farm and the available land area are correlated so that farm units can cover their need for feed and soil nutrients from within the system.

Organic farming merges traditional and respectful views on nature with modern scientific insights. It encompasses several farming methods and approaches.

Organic farming is practiced in approximately 100 countries of the world and the area under organic management is continually growing. Also for some countries, where no statistical material is available, it may be assumed that organic agriculture methods are practiced in default. According to the SOEL-Survey (February 2003), almost 23 million hectares are managed, organically world-wide. Currently, the major part of this area is located in Australia (10.5 million hectares), Argentina (3.2 million hectares) and Italy (more than 1.2 million hectares). Fig. 01 has given the percentile organic land distribution in the world in 2003.

Organic agriculture is of particular interest to developing countries like Sri Lanka because it is in consonance with long-term sustainable development strategies. Furthermore, the spectacular growth in demand for organic agriculture that took place in recent years has opened up export possibilities for developing countries. Aggressive marketing strategies adopted by major retail groups, the product innovations introduced by food manufacturers and supportive government policies all bode well for sustained demand growth in the sector over the medium term.

### What is Organic Agriculture?

“Organic agriculture is a holistic production management system which promotes and enhances agro-ecosystem health, including biodiversity, biological cycles, and soil biological activity. It emphasizes the use of management practices in preference to the use of off-farm inputs, taking into account that regional conditions require locally-adapted systems. This is accomplished by using, where possible, agronomic, biological and mechanical methods, as opposed to using synthetic materials, to fulfill any specific function within the system.” This definition is given by the international food standards body established by the Food and Agriculture Organization of the United Nations (FAO) and the World Health Organization (WHO). According to the International Federation of Organic Agriculture Movements (IFOAM) definition, “Organic agriculture is an agricultural system that promotes environmentally, socially, and economically sound production of food, fiber, timber, etc. In this system, soil fertility is seen as the key to successful production. Working with the natural properties of plants, animals, and the landscape, organic farmers aim to optimize quality in all aspects of agriculture and the environment.”

Continent	Area in Millions of Hectares	% of Global Total
Oceania	10.6	46.3%
Europe	5.1	22.6%
Latin America	4.7	20.8%
North America	1.5	6.7%
Asia	0.6	2.6%
Africa	0.2	1.0%
Total	22.7	100.0%

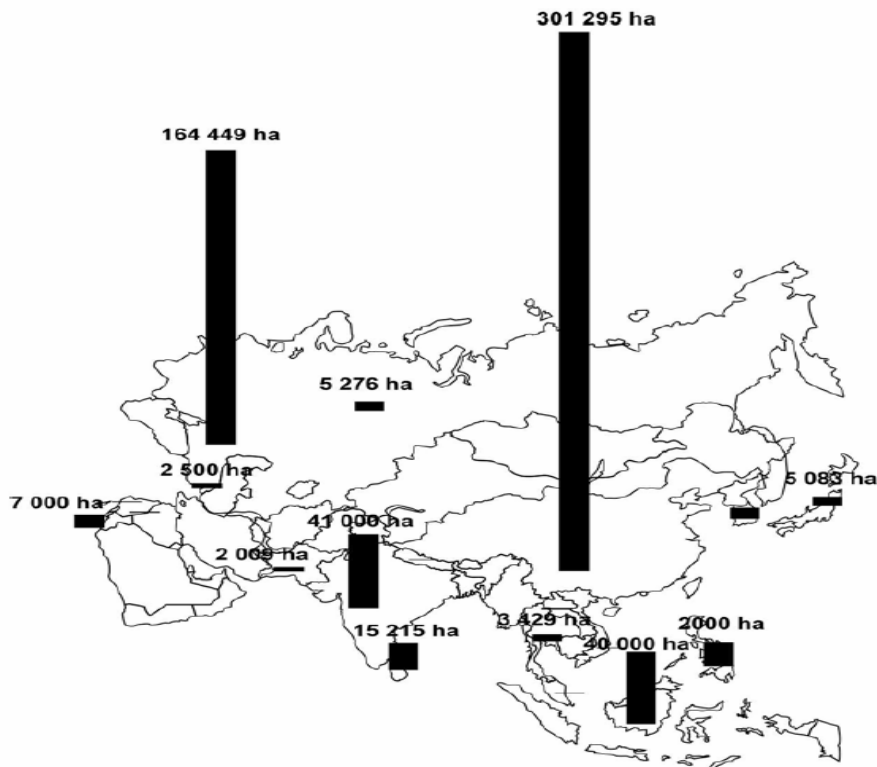

Fig. 01 Lands under certified organics in Asian region (Soel-Survey 2003 (Yussefi and Willer, eds., *The World of Organic Agriculture 2003: Statistics and Future Prospects*))

## Organic certification

For products to be labeled as organic, they must currently be certified by a third-party organization as having been produced according to specific standards. Certification of organic products is the certification of a production system, as opposed to the certification of a product. For a product to be sold as .organic, all operators in the production and handling chain, including farmers, processors, manufacturers, exporters, and importers, must be certified organic.

Certified organic agriculture refers to various systems for producing food, feed and fibres according to specific standards, which promote environmental, social and economic health. In order to maintain these standards independent international certification bodies have been established. Inspection and certification work is based on legal country regulations according to the EEC No. 2092/91 or the Swiss Organic Regulation for example and the verification of private standards such as that given by Naturland, Biosuisse, Demeter and Bioland.

The Codex Alimentarius Commission has developed internationally agreed upon organic guidelines (Codex, 1999). This Commission was created by the Food and Agricultural Organization (FAO) and the World Health Organization (WHO) of the United Nations as the major international mechanism for encouraging fair international trade in food. For the U. S., Codex activities are coordinated from the USDA, the Food and Drug Administration and the U. S. EPA.

The International Federation of Organic Agriculture Movements (IFOAM) represents the organic community during meetings. IFOAM has established basic international standards for organic production and processing. The International Organic Accreditation Services (IOAS) operates the IFOAM accreditation service that ensures the equivalency of certification programs worldwide. IFOAM accreditation is internationally recognized.

In general for certification of organic products certified organic crop must be raised on land where no synthetic chemical inputs (fertilizers, herbicides, insecticides, fungicides, sewage sludge, or genetically engineered organisms) have been applied for 36 months prior to its harvest and sale. Allowed inputs for production and processing operations include naturally occurring materials and a very limited range of synthetic inputs. All synthetic inputs must be listed on the NOP's National List. All inputs and treatments must be noted in production records. Farms are required to have a crop rotation plan (e.g. no more than four out of six years in row crops, and the same row crop cannot be grown in consecutive years on the same land). Legumes must be rotated with row crops to provide nitrogen and ensure a healthy system.

## IFOAM and organic Agriculture

Within the organic industry, the international federation of organic agriculture movement (IFOAM) has established an international accreditation programme, which is designed specifically for accreditation of certification bodies. This accreditation programme is operated by the

## International Organic certifying labels

international organic accreditation service (IOAS). IOAS is an independent non-profit organization with IFOAM as sole member. Accreditation by IOAS, also called “IFOAM accreditation”, is based on compliance with IFOAM’s basic standards and its accreditation criteria for programmes certifying organic agriculture and processing.

The International Federation of Organic Agriculture Movements (IFOAM) was established in 1972 as an umbrella organization for national organic agriculture associations. Members also include certification bodies, traders and processors. IFOAM has established international Basic Standards of Organic Agriculture and Food Processing, which provide a framework for various

certification programmes. The IFOAM standards are updated regularly by the IFOAM Standards Committee and are approved by the IFOAM General Assembly. IFOAM has consultative status with the European Union (EU) and the Codex Alimentarius Commission, and a formal liaison status with FAO.

Organic agriculture especially in poorer countries, contribute to purposeful socio-economic and ecologically sustainable development. This is due to the organic practice, which is low in inputs and therefore cost effective and at the same time it creates a market – local and international – with tremendous prospects for growth, and offers creative producers and exporters from the south some excellent opportunities to improve incomes and living conditions.

### **Organic Agriculture in Sri Lanka**

Organic agriculture is not a new concept to Sri Lankan Agriculture. Since ancient time it was practice in default. Ancient farmers use highly sophisticated traditional agricultural system, such as Kakulama in rice cultivation and Chena cultivation for field crops and crop rotation system, agro-forestry system etc.,

However, introduction of green revolutionary agricultural technologies nearly after world war II reached main agricultural production areas in the island, that old traditional system was replaced by commercial agriculture. However, there were certain cropping systems and communities did not adopt the use of agro-chemicals and they can be classified as “Organic by Default”.

Indigenous knowledge and traditional agricultural equipment and tools, whereas modern organic agriculture is market oriented and production has to adhere to certain standards or at least accepted norms in cultivation methods and practices.

Most of cropping systems such as home gardens and small level coconut lands does not have intensive farming practices and they are normally managed organically. However, these lands have not been certified by third party certification bodies. In the commercial scale very small

extent of the Agricultural lands has been certified as organic. This extent is roughly about 800 ha. Recently large plantation companies have invested for organic agriculture and most of these have been certified by foreign agencies.

Main organically produced crops has given in Table 01.

Table 02. Main Crop species grown in organically in Sri Lanka

English name	Local/Sinhala Name	Scientific name	Product/s
Cashew	Cadju	<i>Anacardium occidentale</i>	Nut
Pineapple	Annasi	<i>Ananas comosus</i>	Fresh fruit/ juices
Annona	Anoda	<i>Annona.</i>	Fresh fruit/ juices
Jack fruit	Kos	<i>Artocarpus heterophyllus</i>	Fruit/ vegetables/ dehydrated products
	Hatawariya	<i>Asparagus racemosus</i>	Medicinal Plant / prepare Drinks
Tea	Te	<i>Camellia sinensis</i>	Beverages
Chilli	Miris	<i>Capsicum sp.</i>	Spice/ Vegetables
Papaya	Papol	<i>Carica papaya</i>	Fruit/ Juices
Toddy palm/ Kitul	Kitul	<i>Caryota urens</i>	Kithul Tacles/ toddy
Cinnamon	Kurundu	<i>Cinnamomum verum</i>	Spice
Citrus	Dehi	<i>Citrus sp.</i>	Drink/ spices /fruit
Coconut	Pol	<i>Cocos nucifera</i>	Fresh nut/ toddy/ honey/
Coffee	Copi	<i>Coffea arabica</i>	Beverages
Mango	Amba	<i>Mangifera indica</i>	Fruit
Banana	Kesel	<i>Musa sp.</i>	Fruit
Rambutang	Ramutang	<i>Nephelium lappaceum</i>	Fruit
Avocado	Ali pera	<i>Persea Americana</i>	Fruit
Pepper	Gam-miris	<i>Piper nigrum</i>	Spices

Cloves	Karambu	<i>Syzygium aromaticum</i>	Spices
Tamarind	Siyamabala	<i>Tamarindus indica</i>	Spices / fruit
Vanilla	Vanila	<i>Vanilla planifolia</i>	Spices
Ginger	Inguru	<i>Zingiber officinale</i>	Spices

However, there are large numbers of medicinal plants and vegetables growing in organically at subsistence level

Almost every district in Sri Lanka has practiced organic farming practices. However, certified and large scale organic estates are concentrated in few districts as given in Fig. 02.

## Certification & Accreditation

Sri Lanka does not develop any national level certification standards and this may be a main drawback on this sector. However, some preliminary work has been done for development of national organic certification agency.

Lanka Organic Agriculture Movement is the leading player to develop such standards and it's the pioneer and main organization involved in national organic agriculture developments.

However, seven foreign Certification Agencies are presently operating in Sri Lanka as follows,

1. SKAL, Netherlands;
2. NASAA, Australia;
3. Naturland, Germany;
4. Institute for Market Ecology-IMO, Switzerland;
5. Eco Cert, Switzerland;
6. Organic Farmers and Growers Ltd. United Kingdom; and
7. Demeter and BioSuisse, Switzerland

About 30 large scale plantation companies are presently involved in organic farming and most of these have been certified by the foreign Certification agencies. Most of organic farming companies have organized grower network in different parts of the island. Few companies have their own estates which have been certified.

About 30 Non-governmental organizations are also involved in organic sector. Most of these organizations are promoting organic agriculture and few of those are handling community training programmes. Only few NGOs are directly linked with marketing and value addition.

Organic agriculture though, as it is our belief, will only have sustained success, if the farmers, farmer groups, traders, technicians and authorities have access to appropriate information and are well prepared for their work. This directory, which has come into being, thanks to the support of the GTZ- Value Chain Core group.

Therefore the objective of this directory is to collect information of the exporters, Non-governmental organizations, growers involve in organic agriculture farming and related activities in Sri Lanka. This has also expanded to collect information of the public sector research personal who actively engages in the sector.

# Organic Product Exporters

## Bio Foods (Pvt.) Ltd.,

**E1**

Nawa Gurukelle, Doluwa, Gampola

Tel.: 081-2415100

Fax: 081-2415104

E-mail: biofoods@yahoo.com

Web Site: www.biofoods.com

Bio Foods (Pvt.) Ltd. was established in 1993. Their main Organic agricultural products are Tea, Cinnamon, Pepper, Clove and Nutmeg

Main Export Markets are United States, France, Japan, United Kingdom, Australia and Europe. The Company has been Certified and Inspected by SKAL, NASAA, Institute for Market Ecology-IMO, Demeter and Biosuisse, NOP, JAS and USDA

**Contact Person** Dr. A S Ranaweera  
Managing Director

## Cecil Food (Pvt.) Ltd.,

**E2**

456, Avissawella Road, Miriswatte, Puwakpitiya

Tel.: 036 2222385, 2232668, 2233421

Fax:

E-mail: ceciloff@sltnet.lk

Web Site: www.cicil.lk

Cecil Food (Pvt.) Ltd. was established in 1994. Their main Organic agricultural products are Pineapple, Mango, Papaya, Banana, Sesame, Cashew, Lime, and Spices

Main Export Markets are USA, UK, GERMANY, Holland, & Australia. The Company has been Certified and Inspected by SKAL

**Contact Person** Mr. Annes Junaid  
Managing Director

## Ceylinco Midigama Fruit Farms Ltd.,

**E3**

Midigama, Ahangama

Tel.: 041-2251970

Fax: 041-2251970

E-mail: midifarm@sltnet.lk

Web Site: www.ecofruitfarm.com

Ceylinco Midigama Fruit Farms Ltd., was established in 1997. Their main Organic agricultural products are Dehydrated Pineapple, papaya, jak fruit, mango, banana, ginger and black paper

Main Export Market is Japan. The Company has been Certified and Inspected by SKAL.

**Contact Person** Mr. Michael de Vass Gunawardena  
Managing Director

## Green Agro Lanka (Pvt. Ltd.,

**E7**

Level 15, Ceylinco Seylan Tower, 90, Galle Road, Colombo 3.

Tel.: 011 4 71614 5 / 6

Fax:

E-mail: [greenagro@ceylinco.com](mailto:greenagro@ceylinco.com) Web Site: [www.ceylincoconsolidated.com/green\\_agro.html](http://www.ceylincoconsolidated.com/green_agro.html)

Green Agro Lanka (Pvt.) Ltd. was established in 1991. Their main Organic agricultural products are Processing and Exporting Coco Pith and Coir Fibber products as a 100% natural organic sustenance / material / product For agriculture, horticulture, home gardening & décor,

Main Export Markets are USA, Australia, Egypt and Korea.

**Contact Person** Mr. Ravi Moonemalle  
Director Operations

## Greenfield Bio Plantations (Pvt.) Ltd.,

**E8**

23, Braybrooke Street, Colombo 02

Tel.: 011-2300159 / 200458

Fax:

E-mail: [greenfield@lankaorganics.com](mailto:greenfield@lankaorganics.com) Web Site: [www.lankaorganics.com](http://www.lankaorganics.com)

Greenfield Bio plantations (Pvt.) Ltd., was established in 1997. Their main Organic agricultural products are Tea, spices, cashew, coconut, medicinal herbs, fruits, desiccated coconut

Main Export Markets are in the Worldwide. The Company has been Certified and Inspected by SKAL (Netherlands), NASAA (Australia) and IMO (Switzerland)

**Contact Person** Mr. S. Muthusammy  
Managing Director

## Guayapi Lanka (Pvt.) Ltd.,

**E9**

Maussawa Estate, Pundaluoya

Tel.: 051 2233100

Fax: 051-2233133

E-mail: [info@guayapilanka.com](mailto:info@guayapilanka.com) Web Site: [www.guayapi.com](http://www.guayapi.com)

Guayapi Lanka (Pvt.,) Limited was established in 1999. Their main Organic agricultural products are Kitul Treacle, cana powder, tea, passion juice, lime juice, coconut oil, fresh cashew nuts and spices

Main Export Market is France.

**Contact Person** Mr. M B Karunasinghe  
Acc & Admin. Assistant

### HDDDES Extracts (Pvt.) Ltd.,

**E10**

309, Jayantha Weerasaekara Mawathe, Colombo – 10,  
Tel.: 011- 2438739  
Fax: 011- 2440556  
E-mail: hddes@sltnet.lk

Web Site: www.hddes.com

HDDDES Extracts (Pvt.) Ltd. was established in 2001. Their main Organic agricultural products are Spices, Essential Oils and Oleoresin

Main Export Markets are in the Worldwide. The Company has been Certified and Inspected by SKAL

**Contact Person** Mr. Gehan De Silva  
Managing Director

### Lanka Bio Products (Pvt.) Ltd.,

**E11**

277- New Hunupitiya Raod, Dalugama, Kelaniya

Tel.: 011-2905196

Fax: 011-2911471

E-mail: bioprod@sltnet.lk

Web Site:

Lanka Bio Products (Pvt.) Limited was established in 2001. Their main Organic agricultural products are Organic Tea, Gutukola, Herbal tea, virgin coconut oil, herbal soap

Main Export Markets is European Union. The Company has been Certified and Inspected by NASAA

**Contact Person** Mr. Nelson Nagasinghe  
Managing Director

### Lanka Organics (Pvt.) Ltd.,

**E12**

23 Braybrooke St, Colombo 2,

Tel.: 011 2300459-2300155

Fax: 0 1 2336325

E-mail: info@lankaorganics.com

Web Site: www.lankaorganics.com

Lanka Organics Private Ltd. was established in 1992. Their main Organic agricultural products are Tea, spices, cashew, coconut, medicinal herbs, fruits, desiccated coconut

Main Export Markets are in the World wide. The Company has been Certified and Inspected by NASAA, Organic farmers & Growers Ltd, UK (OF & G), SKAL and Institute for Market Ecology, Switzerland (IMO)

**Contact Person** Mr. S. Muthusammy  
Managing Director

## Mackwoods Ltd.,

**E13**

10 Gnanartha Pradeepa Mw Colombo

Tel.: 011-26979

Fax: 011- 2699454

E-mail: expomackwoods@sltnet.lk Web Site: www.mackwoods.com

Mackwoods Limited was established in 1841. Their main Organic agricultural products are Coconut Milk & Cream. Desiccated Coconut, Mango, Papaya, Pineapple, Banana, Fruit Chunks in Juice, Cashew Kernels and Dehydrated Fruits

Main Export Markets are United States, France, Japan, Taiwan, Germany, Spain and United Kingdom. The Company has been Certified and Inspected by SKAL, JAS & NOP

**Contact Person** Mr. Suresh Fernandez  
GM (Operations Export & Agro)

## Maskeliya Plantations Ltd.,

**E14**

320/1, Union Place, Colombo 02

Tel.: 011 431826

Fax: 011 4310835

E-mail: ronnie@rpik@arpico.com Web Site: www.arpico.com

Maskeliya Plantations (Pvt.) Ltd. was established in 1992. Their main Organic agricultural product is Tea, Coffee, Paper, Cinnamon, Herbs

Main Export Markets are in the United States, Japan and Germany. The Company has been Certified and Inspected by IMO (Switzerland), NASAA and Organic Farmers and Growers Ltd.,

**Contact Person** Mr. Ronnie de Almada  
DGM

## Ni-Cey International (Pvt.) Ltd.,

**E15**

190, Sri Jayawardenapura Mawatha, Rajagiriya

Tel.: 011 2869986

Fax: 011- 2869777, 2865678

E-mail: info@niceygroup.com Web Site: www.niceygroup.com/

Ni-Cey International (Pvt.) Ltd was established in 1991. Their main Organic agricultural products are Organic Tea and Salt

Main Export Markets are Japan, Korea and Middle East. The Company has been Certified and Inspected by Institute for Market Ecology-IMO and SKAL

**Contact Person** Mr. G L Tillakaratne  
Managing Director

## Organic Coconut Growers Association

E17

163/6, Vijaya Kumaratunga Mawatha, Colombo 05

Tel.: 011 2823104

Fax: 011 2823104

E-mail: [neralu@sltnet.lk](mailto:neralu@sltnet.lk)

Web Site:

Organic Coconut Growers Association was established in 1996. Their main Organic agricultural products are Desiccated Coconut, coconut oil, organic rice

Main Export Markets are Germany and Europe. The Company has been Certified and Inspected by Institute for Market Ecology-IMO.

**Contact Person** Mr. H D N Chandrasiri  
Chairman

## Prime Food Products (Pvt.) Ltd.,

E17

Kandy Industrial Park, Pallekelle, Kandy, Sri Lanka

Tel.: 08-12420203

Fax: 08-12420204

E-mail: [raj@lankaorganic.com](mailto:raj@lankaorganic.com)

Web Site: [www.srilankabusiness.com/etrade/primefood.htm](http://www.srilankabusiness.com/etrade/primefood.htm)

Prime Food Products (Pvt.) Ltd. was established in 1994. Their main Organic agricultural products are Organic Fruits, Vegetables, Spices and medicinal herbs

Main Export Markets are in the Worldwide. The Company has been Certified and Inspected by Organic Farmers and Growers Ltd.UK, SKAL

**Contact Person** Mr. T P L Raj  
Director

## Renuka Organics (Pvt.) Ltd.,

E18

No.69, Sri Jinarathana Road, Colombo 2, Sri Lanka

Tel.: 0112-314750

Fax: 0112-445549

E-mail: [organicfoods@renukagroup.co](mailto:organicfoods@renukagroup.co) Web Site:

Renuka Organics (Pvt.) Ltd. was established in 2001. Their main Organic agricultural products are Organic Coconut Milk, Organic Desiccated Coconut, Organic Coconut Milk Powder, Organic Juice Drinks, Organic Chutneys, Organic Canned Tropical Fruits and Organic Coconut based products

Main Export Markets are France, Germany and United Kingdom. The Company has been Certified and Inspected by NASAA, Organic Farmers and Growers Ltd.UK

**Contact Person** Ms. Darshika Jayasekera  
Product Manager

### Stassen Natural Foods (Pvt.) Ltd.,

**E19**

833, Srimavo Bandaranaike Mawatha, Colombo 14

Tel.: 011 522871 6

Fax: 011 2540333

E-mail: sel@stassengroup.com Web Site: www.stassengroup.com

Stassen Natural Foods (Pvt.) Ltd. was established in 1987. Their main Organic agricultural products are Tea, Coffee and Cashew

Main Export Markets are United States, France, Japan, Taiwan, Germany, Spain and United Kingdom. The Company has been Certified and Inspected by Naturland, Institute for Market Ecology-IMO, Demeter and BioSuisse

**Contact Person** Dr. N. M. Abdul Gaffar  
Director

### Sunshine Tea (Pvt.) Ltd.,

**E20**

60, Dharmapala Mawatha, Colombo 3.

Tel.: 4 702400 6

Fax: 011-4 716428 7

E-mail: sunshinetea@zesta.lk Web Site: www.zestatea.com

Sunshine Tea (Pvt.) Ltd. was established in 1984. Their main Organic agricultural products are Organic Tea

Main Export Markets are France, Spain, Germany, Asia and Europe. The Company has been Certified and Inspected by SKAL, NASAA, and Institute for Market Ecology-IMO,

**Contact Person** Mr. Dushy Ratnasingham  
Executive Director

### Surya compost Fertilizers (Pvt.) Ltd.,

**E21**

33/3 Sri Dharmarama Road, Ratmalana, Sri Lanka

Tel.: 011 2736910

Fax: 011-2735465

E-mail: siddalep@slt.lk Web Site: www.siddhalepa.com

Surya compost Fertilizers (Pvt.) Ltd., was established in 1992. Their main Organic agricultural products are Organic Fertilizer

Main Export Markets are in Asia. The Company has been Certified and Inspected by NASAA.

**Contact Person** Mr. Asoka Hettigoda  
Managing Director

**Target Agriculture (Pvt.) Ltd.,****E22**

Tanamera Estate, Ibbawala, Weligama

Tel.: 049-15453457

Fax: 091-5453459

E-mail: targetag@dialogsl.net

Web Site: www.target-agriculture.com

Target Agriculture Pvt. Ltd. was established in 1994. Their main Organic agricultural products are Dried Fruits and Nuts, IQF frozen tropical fruits, cashew nuts, desiccated coconut, canned products, juices and pulps

Main Export Markets are in the Worldwide. The Company has been Certified and Inspected by SKAL, Demeter and BioSuisse, Institute for Market Ecology-IMO,

**Contact Person** Mr. Thomas Gerbracht  
Chairman

**Tea Masters Ceylon (Pvt.) Ltd.,****E23**

16, Tissa Mawatha, Borupana Road, Ratmalana, Sri Lanka

Tel.: 011- 2610567, 2605331

Fax: 011- 2635529

E-mail: teamast@sri.lanka.net

Web Site: www.teamastersceylon.com

Tea Masters Ceylon (Pvt.) Ltd. was established in 1994. Their main Organic agricultural products are Tea

Main Export Market is United States. The Company has been Certified and Inspected by SKAL

**Contact Person** Mr. Saman Kasthurirathne  
Chairman / CEO

**The Tea & Herb Company (Pvt.) Ltd.,****E24**

102, Kitulwatte Road, Colombo 8

Tel.: 011-2676670 / 71

Fax: 011- 2676690

E-mail: t\_herb@sri.lanka.net

Web Site: www.trinitytea.com

The Tea & Herb Company (Pvt.) Ltd. was established in 1998. Their main Organic agricultural products are organic black tea, organic white tea, organic green tea, organic spices & fruit, organic black tea with flavor, organic herbs, organic green

Main Export Markets are United States, France, Japan, Taiwan, Germany and Spain. The Company has been Certified and Inspected by Institute for Market Ecology-IMO, Eco Cert and NOP

**Contact Person** Mr. Senaka Kotagama  
Managing Director

### Tropical Health Food (Pvt.) Ltd.,

**E25**

Heraliyawatte Industrial Park, Kurunegala

Tel.: 037-2224308

Fax: 037-2224308
